The Hype

About

The Hype delivers an 80s rock throwback built around the hits of Motley Crue, Def Leppard, Poison, Bon Jovi, and Aerosmith.

The show is framed as five epic concerts in one, running over two hours and leaning fully into the glam, bombastic side of 80s rock. It is both a musical and visual tribute to the era, with a stage show designed to match the material.

Across North America, The Hype has presented this concert experience with large-scale production elements including video screens, a light show, and a strong rock star stage presence. For buyers looking for an 80s rock-focused specialty act with a full concert feel, the format is clear: familiar songs, high energy, and a production-heavy presentation.
